

Curriculum Vitae of Magnus Annerstedt

*Dept. of Urology, Herlev University Hospital, Copenhagen, Herlev Ringvej 75, 2730 Herlev, Denmark.
Email magnus.annerstedt@comhem.se*

Medical School: 1995 Gothenburg University, Sweden;

MD: 1996, Värnamo Hospital, Sweden;

Consultant Urologist: 2001, Halmstad county Hospital, Sweden;

Senior Consultant Urologist: 2002 Halmstad county Hospital, Sweden;

Senior Consultant Urologist: 2004 Lund University Hospital, Sweden;

Senior Consultant Urologist: 2009 Herlev University Hospital, Denmark

Head of Section of Robotic Surgery at dept. of Urology, Herlev University Hospital, Denmark

The first surgeon to perform robotic assisted surgery, pioneering and developing surgical technique, in Lund, Sweden

Visiting appointments:

1. Visiting med.stud. Childrens Hospital, Pittsburgh,PA, September-October 1994;
2. L'institute Mutaliste Montsouris, Paris, April-May 2001 (Advanced laparoscopy with Dr Guillonneau);
3. Ohio State University, Columbus, OH, 2005; (Robotic Surgery with Dr Patel)

Military Service:

Cavalery Reserve Officer School, Umeå, Sweden 1984-1986, Focus on leadership, organization and education

Research Cooperation (see also visiting research appointment above):

1. Prof. Rolf Johansson, Dept of Automatic Control, Lund Institute of Technology, Lund, Sweden
2. Prof. Jonas Hugosson, Dept of Urology, Universtiy of Gothenburg, Gothenburg, Sweden
3. Associate Prof. Ola Bratt, Dept of Urology, Lund University Hospital, Lund, Sweden
4. Associate Prof. Ulf Schött, Dept of Anesthesiology, Lund University Hospital, Lund, Sweden
5. Prof. Peter Wiklund, Dept of Urology, Karolinska University Hospital, Solna, Sweden
- 6: Prof. Gunnar Steineck, Dept of Clinical Cancer Epidemiology, Karolinska University Hospital, Solna, Sweden

Membership of International Program Committees, Award Committees:

1. Consulting Editor Journal of Robotic Surgery, 2006--
2. Member of CC-2207, organizing committee, The First Craaford Conference, Evolution of Robotic Surgery in Europe, Lund Sweden
3. Member of Southern Sweden Prostate Cancer Group, 2001-- 2009
4. Member of European Association of Urology
5. European Robotic Urology Symposium 2006,2007,2008,2009, 2010 Organizing committee,faculty, speaker.
6. World Robotic Urology Symposium 2007,2008, 2009,2010 faculty, speaker.
7. Minimally Invasive Robotic Association 2008, faculty, speaker
8. Invited as expert lecturer at the EAU advanced course on upper urinary tract robotic surgery

Education:

Attended the Training the Trainers Course, September 2006, Rodney Peyton, The Royal College of Surgeons of England

Advanced Trauma Life Support, 2000

Organizer of the Advanced Course on Laparoscopic and Robotic Pelvic Urological Surgery, Lund, 2006

Regularly holding lectures on prostate cancer and minimally invasive surgery for medical students

Proctoring, taking part in initiating Robotic Surgery at:

Malmö University Hospital, Sweden
Linköping University Hospital, Sweden
Jönköping County Hospital, Sweden
Herlev Sygehus, University of Copenhagen, Denmark
Halmstad County Hospital, Sweden
Varberg County Hospital, Sweden
Hygeia Hospital, Athens, Greece
Krankenhaus Barmhertigen Schwester, Linz, Austria
Sahlgrens University Hospital, Gothenburg, Sweden
St James University Hospital, Leeds, England
Rigshospitalet, Copenhagen, Denmark

Publications:Robot assisted radical cystoprostatectomy in a small child with rhabdomyosarcoma - A Case Report

Magnus Anderberg MD*, *Torbjorn Backman, MD**, **Magnus Annerstedt, MD****; Dept. of Pediatric Surgery*, Dept. of Urology**, University Hospital, Lund, Sweden

Robotic-assisted laparoscopic retroperitoneal lymph node dissection in Clinical Stage II testicular cancer

Magnus Annerstedt, Sigurdur Gudjonsson, Björn Wullt and Bengt Uvelius
Department of Urology, Lund University Hospital, Getingevägen, SE-22185 Lund, Sweden

Stability of Haptic Obstacle Avoidance and Force Interaction

Rolf Johansson*, **Magnus Annerstedt****, Anders Robertsson*; Dept of Automatic Control, Lund University, Sweden*, Department of Urology, Herlev University Hospital, Denmark**

Clinical Profile:

Initially I focused on general as well as urologic surgery, both open and laparoscopic. Gradually however, the focus has moved towards urological oncological surgery which has been my main topic since about eight yrs. Today I perform the full spectrum of open surgery for urologic malignancies including cystoprostatectomy with different urinary diversions, radical prostatectomy, extended pelvic lymph node dissection, all upper urinary tract oncological surgery. This includes a full set of urologic laparoscopic procedures. In the last years I have also been responsible for the robotic program at our institution with a track record of more than 450 major robotic urological procedures including robotic assisted prostatectomy, cystectomy with pelvic lymph node dissection, radical paraaortal lymph node dissection, partial nephrectomy, nephrectomy, nephroureterectomy and pyeloplasty.

I performed the first known case in the world of a Robotic Cystectomy with intracorporeal urinary diversion in a child with rhabdomyosarcoma in the bladder/prostate and the first known case in the world of a Robot Assisted Total Pelvic Exenteration with intracorporeal urinary and colonic diversion without a minilaparotomy.

Family:

I was borne in Stockholm, Sweden, 1964. I have four children; Caroline 18(Yrs), Isak 7, Signe 5 and Maj 3.
