

Time	Program - Friday, September 10, 2010	
07.30 - 08.45	Main auditorium - Early morning session (sponsored lecture) <i>Chairs: J Dequesne, A Maggioni</i>	
	SILS, single port laparoscopy, surgical technique and gynecological indications <i>F Ciancio</i>	25'
	Communication in the robot OR <i>M Degueldre</i>	15'
	Optimizing turnover in the OR <i>R Kho</i>	15'
	The interface between robot assisted surgery and traditional laparoscopy in gynecological oncology <i>J Magrina</i>	15'
08.45 - 10.45	Main auditorium - Gynecological Oncology program <i>Chairs: I Vergote, C Köhler, J Magrina</i>	
	Robotic nervesparing radical hysterectomy Educational video <i>A Maggioni</i>	60'
	Pelvic neural anatomy/nervesparing/radical surgery <i>E Leblanc</i>	20'
	Urinary function after radical hysterectomy <i>F Narducci</i>	15'
	Nerve sparing radical hysterectomy procedure <i>T Cheung</i>	10'
	<i>Panel discussion</i>	15'
	<i>Take home message</i>	
Lecture hall A - Gynecology program <i>Chairs: G Schär, C Lönnerfors, A Advincola</i>		
Live surgery Myomectomy <i>M Degueldre</i>		
Parallel lecture Robotic myomecomy. Indications, limitations. State of the art <i>A Advincola</i>	20'	
<i>Panel discussion</i>	15'	
<i>Take home message</i>		
10.45 - 11.15	Coffee break and exhibition	
11.15 - 12.30	Main auditorium - Gynecological Oncology program <i>Chairs: J Shepherd, R Verheijen, R Holloway</i>	
	Cervical cancer surgery with the da Vinci robot. A review. <i>I Vergote</i>	20'
	Radical trachelectomy. Review of indications limitations, results and surgical techniques <i>J Shepherd</i>	15'
	Ovarian cancer and robotic surgery. A review. <i>R Verheijen</i>	20'
	Rare advanced procedures in gyneoncology. An overview. <i>J Magrina</i>	20'
	Lecture hall A - Gynecology program <i>Chairs: A Advincola, J Dequesne, R Kho</i>	
Robotic surgery in reproductive medicine. An Overview <i>M Degueldre</i>	20'	
Pregnancy outcome following robotic myomectomy. <i>C Lönnerfors</i>	15'	
Tubal reanostomosis, results and technique. <i>M Degueldre</i>	20'	
Robot applications in early pregnancy complications <i>J Persson</i>	20'	
12.30 - 13.30	Lunch and exhibition	
13.30 - 14.45	Main auditorium - Gynecological Oncology program <i>Chairs: E Lambauide, R Verheijen, B Sert</i>	
	Educational video Retroperitoneal paraaortic LND with the da Vinci robot. <i>F Narducci, E Leblanc</i>	30'
	The Paraaortic anatomy. <i>C Köhler</i>	15'
	Tips and tricks for robotic paraaortic LND. Docking and port placement alternatives <i>J Boggess</i>	15'
	<i>Panel discussion</i>	15'
	<i>Take home message</i>	
Lecture hall A - Gynecology program <i>Chairs: M Degueldre, P Heinonen, I Al Badawi</i>		
Genital malformations suitable for minimally invasive surgery. An Overview. <i>P Heinonen</i>	20'	
Robot assisted surgery for genital malformations. Video examples <i>C Lönnerfors</i>	20'	
Future role for robot assisted surgery in benign gynecology. <i>A Advincola</i>	20'	
<i>Panel discussion</i>	15'	
<i>Take home message</i>		
14.45 - 15.15	Coffee break and exhibition	
15.15 - 17.00	Free communications session <i>Chairs: C Köhler, G Schär, E Leblanc</i>	
	Robot assisted laparoscopic radical trachelectomy. Surgical technique. Pros and cons. <i>T Bossmar</i>	15'
	Free communications Uterine artery sparing robotic radical trachelectomy with pelvic lymphadenectomy <i>Y Lee</i>	10'
	Outcomes of robotic surgery for endometrial cancer stage I figo are equivalent to laparoscopic staging in a referral cancer centre <i>P Bartos</i>	10'
	Robotic-Assisted Resection of Liver and Diaphragm Recurrent Ovarian Carcinoma: Description of Technique <i>R Holloway</i>	10'
	Robotic-assisted Extraperitoneal lumbo-aortic lymphadenectomy <i>P Collinet</i>	10'
	Operational & Throughput enhancement in davinci Robotic Gynecological Surgery: Value of dedicated Multidisciplinary Team <i>V Kumari</i>	10'
	Pregnancy outcome following robotic myomectomy <i>N Pluchino</i>	10'
	Robotic sacrocolpopexy dissection of the presacral space <i>S Hamati</i>	10'
	Deep endometriosis: resection of a nodule involving the ureter <i>V Cela</i>	10'
	Robotically assisted hysterectomy for benign cases in comparasion to total laparoscopic and vaginal hysterectomy <i>S Kilic</i>	10'
