

Course directors:

Program nurses break out: C Etén Bergqvist, Sweden

Program benign gynecology: M Degueldre, Belgium, G Schär, Switzerland, C Lönnerfors, Sweden

Program gynecological oncology: F Narducci, France, J Persson, Sweden, R Verheijen, The Netherlands

Time	Program - Thursday, September 9, 2010		
08.00 - 08.25	Main auditorium - Introduction Welcome - J Persson		5'
	Present application of robotassisted surgery in gynecology and gynecology R Holloway		20'
08.30 - 10.30	Main auditorium Chairs: J Boggess, T Bossmar, A Maggioni	Lecture hall B - Nurses break out program Nursing in robotics Chair: C Etén Bergqvist	
	Live surgery, endometrial cancer Hysterectomy with pelvic and paraaortic LND J Persson, P Reynisson	Introduction	5'
		Perioperative nursing in Gyn Robotics C Arnaboldi	30'
		The work of the anesthetic nurse in robotics P Hammarstrand	25'
		Caring for the instruments C Arnaboldi	25'
		The role of the coordinating nurse. Increasing turnover and efficiency R Montero	35'
10.30 - 11.00	Coffee break and exhibition		
11.00 - 12.20	Main auditorium - Gynecological oncology program Chairs: B Lindahl, F Narducci, R Verheijen	Lecture hall A - Gynecology program Chairs: G Schär, C Lönnerfors, P Kannisto	Lecture hall B - Nurses break out program Safety Chair: R Montero
	Endometrial cancer surgery with the da Vinci robot, a review J Boggess	Robotic total and supracervical hysterectomy. Surgical technique R Holloway	Clear communication: an important way of improving and securing safety C Etén Bergqvist
	20'	20'	20'
	Sentinel node in endometrial cancer. State of the art C Köhler	Hysterectomy. Recent developments of technique and instruments A Advincola	Safety aspects from a biomed nurse's view M Rehnström
	15'	20'	30'
	Complications associated with pelvic and paraaortic LND L Rob	Robot assisted or laparoscopic hysterectomy-surgical outcome and quality of life- Results of a randomized controlled trial D Sarlos	Risk reduction and safety aspects in the robot OR A Folin
	15'	20'	30'
	Incidence, natural course and surgery of lymphocysts. P Reynisson	Pro/con panel discussion	
	15'	20'	
	Take home message	Take home message	
12.20 - 13.20	Lunch and exhibition		
13.20 - 15.20	Main auditorium - Gynecological oncology program Chairs: T Bossmar, R Holloway, L Rob	Lecture hall A - Gynecology program Chairs: I Al Badawi, C Lönnerfors, D Sarlos	Lecture hall B - Nurses break out program Future aspects Chair: C Arnaboldi
	Live surgery Sentinel node detection in cervical cancer C Borgfeldt, P Kannisto	Live surgery Sacrocolpopexy G Schär	What competencies are required in the robot OR? R Montero
			25'
	Parallel lecture Sentinel node detection in cervical cancer. State of the art L Rob	Parallel lecture Uterine sparing sacrocolpopexy D Sarlos	Training new colleagues C Rosell
	20'	15'	20'
	Robotic Radical hysterectomy in cervical carcinoma: the Belgian experience in 50 cases I Vergote	Robot-assisted laparoscopic sacrocolpopexy: experience with 36 cases C Louis-Sylvestre	Tips, tricks and troubleshooting D Douglas
	10'	10'	20'
	Robot assisted radical hysterectomy. Economy compared with abdominal surgery and follow up data with pattern of recurrence J Persson	Robotic assisted uterosacral ligament suspension, pubocervical plication, subtotal hysterectomy, levatopexy for uterine prolapse with cystocele, rectocele and adenomyosis Y Lee	Working as a RNFA in robotics B Rönnerberg
	10'	10'	25'
	Comparative Analysis of the Robot-Assisted Radical Hysterectomy, Laparoscopic-Assisted Radical Vaginal Hysterectomy, and Abdominal Radical Hysterectomy G Gortchev	Sacrocolpopexy M Barahona Orpinell	Embrace the future in robotics. Share your passion and illuminate your profession C Etén Bergqvist
	10'	10'	20'
			Summary and discussion C Etén Bergqvist/Panel
			10'
15.20 - 15.50	Coffee break and exhibition		
15.50 - 17.20	Main auditorium Chairs: C. Köhler, B Sert, P Kannisto		
	Applications of robot assisted gynecological surgery in an Arabic population I Al Badawi		15'
	Robotic surgery in morbidly obese women. Surgical technique. J Boggess		15'
	Low abdominal pressure laparoscopy E Lambaudie		15'
	How to reduce cost in robot assisted surgery J Persson		15'
	Functional and cosmetic aspects of port placement and wound closure R Kho		15'
	Panel discussion Take home message		15'
17.30 - 18.00	SERGS GENERAL ASSEMBLY - Main auditorium		
19.00	Gala dinner at the Castle of Trolleholm
